

Amar Gupta

SOFTWARE DEVELOPMENT ENGINEER 2 • AI-NATIVE ENGINEER

Mumbai, India | +91 8446708718 | amarg4812@gmail.com
amar-portfolio-peach.vercel.app | linkedin.com/in/amargupta-engg | github.com/amargupta-engg

SUMMARY

AI-Native Software Engineer with **4+ years** building **scalable commerce platforms** at **Fynd (Jio Commerce Platform)**. Core contributor to the **multi-tenant Storefront Platform**, **Headless CMS**, and **Marketplace Integrations** powering **AJIO, JioMart, Tira, Netmeds, Reliance Digital, SHEIN, Swadesh**, and **Urban Ladder**. Builder of **agentic AI engineering workflows** that automate operational toil end-to-end. Strong focus on **platform engineering**, **distributed systems**, **production reliability**, and rigorous **Test-Driven Development (TDD)** for every feature shipped.

SKILLS

Programming: JavaScript, React.js, Node.js, Express.js, Python, Vue.js, Next.js, HTML, CSS.

Development: Redis, MongoDB, PostgreSQL, Docker, Kubernetes, Kafka, Objection.js, Knex.js, Mongoose, Jest, SSR, Webpack, TDD, REST APIs, WebSockets.

AI-Native Engineering: OpenAI API, Claude API, Vertex AI, LangChain, Agentic Workflows, Prompt Engineering, Cursor, Claude Code, Codex Agents, GitHub Copilot, ChatGPT.

Platform & Architecture: Distributed Systems, Event-Driven Architecture, Multi-tenant Platforms, Caching, Scalability, High Availability.

Observability: Sentry, Prometheus, Grafana, Coralogix, New Relic.

Core Competencies: Performance Optimization, System Architecture, Full-Stack Development, Team Leadership.

EXPERIENCE

Software Development Engineer 2

April 2026 – Present

Fynd (Jio Commerce Platform). Mumbai, Maharashtra

- Designed and built **Dr. Nexus**, a **7-step autonomous AI agent**: **Sentry Alert** → **LLM Analysis** → **Jira Ticket** → **AI Code Fix** → **Validation** → **PR Merged** → **Jira Auto-Closed**. Operates with **zero manual intervention** across core storefront services. (github.com/amargupta-engg/Jira-AI-Agent)
- Drive platform-level architectural decisions across **Storefront**, **CMS**, and **Marketplace Integrations**, evaluating trade-offs across **scalability**, **reliability**, **latency**, and **consistency**.
- Lead **AI-native engineering** adoption — embedding **Cursor**, **Claude**, **OpenAI APIs**, and **GitHub Copilot** into design, code review, and incident-response loops to compress engineering cycles.
- Mentor engineers on **platform architecture**, **distributed systems trade-offs**, and **cross-service debugging**.

Software Development Engineer

November 2021 – March 2026

Fynd (Jio Commerce Platform). Mumbai, Maharashtra

- Core contributor to **Fynd's multi-tenant Storefront Platform & Headless CMS**, the customizable commerce framework powering **AJIO, JioMart, Tira, Netmeds, Reliance Digital, SHEIN, Swadesh**, and **Urban Ladder**.
- Designed and shipped **CMS subsystems** — **Page Mapping**, **Global Sections**, **Section Collections**, and **Audit Trail** — as composable, reusable primitives enabling flexible content management at scale.
- Built **Section Maker-Checker workflow** with **WebSocket-based real-time locking** and a **sequential merging algorithm**, ensuring deterministic merge order and conflict-free publishing across multi-user concurrent edits.
- Built **marketplace integration extensions** for **Amazon, Flipkart, Myntra, Tata Cliq**, and **Tata Cliq Luxe**, architecting **inventory and catalog sync** pipelines with **high availability over strict consistency** and **eventual consistency** guarantees to keep listings live under heavy concurrent load.
- Contributed to **Search** and **Vertex** initiatives, plus **sitemap architecture** and **metadata pipelines**, strengthening **organic SEO** and product discoverability at platform scale.
- Led **migration of Vue.js codebase to React.js**, reducing development time by **70-80%** through improved **component reusability**, modern tooling, and modular architecture.

- Improved **storefront rendering performance**, raised **test coverage to 90%+** via strict **TDD** and AI-accelerated test generation, and authored **reusable platform components** adopted across brands.

Graduate Software Development Engineer

August 2021 – October 2021

Fynd (Jio Commerce Platform). Mumbai, Maharashtra

- Onboarded onto the **Storefront Platform** team, contributing across **frontend and backend**; ramped quickly and shipped production features, earning a full-time promotion.

Full Stack Developer

December 2019 – March 2021

Self-Employed. Mumbai, Maharashtra

- Built **MERN-stack** applications, **business portals**, and **e-commerce solutions** with end-to-end **REST APIs** across frontend and backend layers.

PROJECTS

Dr. Nexus — Autonomous Sentry-to-PR AI Agent

github.com/amargupta-engg/Jira-AI-Agent

7-step agentic AI pipeline from Sentry alert to merged PR with **zero manual intervention**. Orchestrates **Sentry, Jira, Cursor, Claude, OpenAI APIs**, and **LangChain** with structured validation, idempotency, and human-in-the-loop review gates across core storefront services.

jira-cli & sentry-cli — Internal Developer Tools

Internal **CLI tools** automating Jira reporting, evidence collection, and Sentry triaging via live APIs — reducing repetitive operational work team-wide.

Predicate Hashing — Query Optimization at Scale

Hashing-based indexing solution converting dynamic multi-predicate conditions into deterministic hash keys for efficient **single-index lookups**, significantly reducing query execution time on large-scale datasets under high-traffic workloads.

AWARDS & RECOGNITION

Fynd Star

AWARDED TWICE

Recognized **twice** for exceptional performance, ownership, and significant contributions to high-impact platform initiatives at **Fynd**.

AJIO CMS Launch Recognition

MANAGER RECOGNITION

Recognized by manager for delivering the **AJIO CMS module** within a tight timeline, enabling smooth launch of live pages and ongoing onboarding to core Fynd platform services.

EDUCATION

B.K. Birla College of Arts, Science and Commerce — Kalyan, Maharashtra

July 2017 – June 2020

CGPA: 9.8 / 10, B.Sc. Computer Science (Mumbai University)
